College has 2 research centers and more than 5 laboratories

- Basic Medical Research Center
- Research Center of Molecular Medicine
- Medicine Lab
- Dentistry Lab
- Nursing Lab
- Pharmacy Lab
- Medical tests Lab

A City where Human existence can be traced back almost ten thousand years

Chifeng City, named by the Red Mountain in its northeast corner, is located in Inner Mongolia Autonomous Region. Chifeng boasts a long history and a profound cultural background. 10,000 years ago, there were humans multiplied and lived. 8000 years ago, the ancient Xinglongwa people set up "the first Chinese village" and the first seed of human civilization was sowed at here. 5000 years ago, Hongshan culture originated from here.

Chifeng is well-known for its beautiful scenery and unique human landscape. In recent years, Chifeng City stepped up ecological construction and protection, awarded as the national standard-bearer of advanced anti-desertification. meanwhile; the ecological situation has been improved markedly. In this land, grasslands, forests, mountains, deserts, hot springs, lakes, stone forest can be found.

Chifeng possesses convenient transportation and obvious advantages. It is a transport hub , connecting Chifeng, the eastern and western area of Inner Mongolia, north-east part of China and the north part of China. There is only 315 km from Beijing to Chifeng. So it is nicknamed as the "back garden of Beijing."
